The fog you need, anywhere, any weather.

IP-1500 Fog Machine

The IP-1500 is Antari's newest waterproof fog machine, incorporating an innovative new design that earns it an IP-63 rating. Whether indoor or outside, the new IP-1500 delivers massive fog output with its state-of-the-art design and 1500 watts of power.

Included in that design is an extremely precise temperature control system, highly efficient heat conservation system, and an acutely sensitive liquid detection system that senses when fog output or liquid supply is running low. When using the IP-1500 outdoors, even when raining, it is capable of detecting the ambient temperature and adjusting its operating parameters accordingly. Of course, both DMX and wireless remote options also come standard with this professional machine.

The new IP-1500 was designed with efficiency in mind and achieves 13% less electricity consumption than other foggers in its size class, making it the greenest choice.

IP-1500 Technical Specification :

Power：AC100V/AC120V/ AC230V/ AC240V, 50Hz~ 60Hz

Heater：1500 W

Output：20000 cu.ft / min

First heat- up time：6 min

Fluid Consumption：5.8 min / liter (100 % Output)

DMX：On board

Control：Blue LCD screen , Timer mode Volume mode , Wireless Remote.

Weight：13.5 kg

Dimensions (mm)：L450 x W220 x H180
