This page lists thumbnail images of Stock Animation loops, stills images and objects for DL.2, Axon and DL.3. The thumbnails of footage files, when clicked will bring up a small version of the movie that plays.

* Note By right clicking on the loaded movie file you can save the files to you computer to help you further refrence individual files.

The DL.3 and Axon ships with over 1500 items of video footage and still images, DL.2 and some older Axon are loaded with 1000 items of video footage and still images optimized for Lighting Design *. Use any media content file as a texture on up to 3 stock objects and apply effects to create a virtually unlimited number of looks.

For tips on preparing custom content for Digital Lighting, refer to the User [Content Preparation Guide](#) and go to forums.highend.com for additional information.
